TOWER CALIFORNIANS IN
MOVE TO OUST GOVERNOR**Committee Reaches Mexico City With
Mission of Requesting That a
Successor be Named.**

(BY A. P. NIGHT WIRE.)

MEXICO CITY, July 30.—A commission of Lower Californians arrived today to ask Provisional President de la Huerta to name a successor to Gov. Esteban Cantu. Members of the commission insist that the State Executive should be a native of Lower California and claim that Gov. Cantu is not.

Miguel Allesio Robles, secretary to De la Huerta, said that the government is ready to act energetically if Gov. Cantu rebels "because it does not want what happened to Texas to happen in Lower California."

MEXICO CITY, July 29.—The military situation in Lower California was reported yesterday to be "unchanged" by Esteban Cantu, Governor of Lower California, according to Gen. Francisco R. Serrano, Undersecretary of War. The Secretary said no official action relative to an alleged rebellion there have been received and that therefore no plans for combating it had been made.

HARDING IS
INSISTENT.**Demands Specific
Answer of Cox.**

(BY A. P. NIGHT WIRE.)

BIRMINGHAM (AP). July 30.—

Harding prefaced his

speech tonight

with a statement again asking

Gov. Cox for specifications of

the Democratic stand on the

League of Nations, and charging

that the "powerful interna-

tional interests" concerned in

President Wilson's foreign

policy were preparing to finance

the Democratic cam-

paign.

He declared that the Democratic

campaign managers hoped to keep

the issue in the background, but

he insisted they would not be per-

mitted to do so.

Harding at the conference at

Boston yesterday from Gov.

Cox and Senator Walsh of Mas-

sachusetts, a Democratic supporter

of the Republican ticket, in-

sisted that Harding said it was

what they had not agreed on Ar-

kley's visit to the White House and

that the Democratic cam-

paign was standing by the President

for ratification of the League with-

out essential modifications.

The statement also rapped George

H. White, the Democratic national

chairman, for his criticism of the

Republican plan to hold campaign

meetings to \$100 each, and

predicted that by November the

country would show its disapproval

of unlimited campaign funds.

AGUA PRIETA (Mon.) July 30.—

According to information made

public here today, scouts for Gov.

Esteban Cantu of Lower California

are in Sonora, attempting to recruit

Mayo and Yaqui Indians for ser-

vice against the central govern-

ment.

It is proposed, it is said, to let

recruits make their way individu-

ally to Lower California, where

they will be mobilized.

A report originating in Nogales,

Son., that Indians are being mobil-

ized by the hundreds is discredited.

Officials here declare the majority

of Sonora Indians who are fit for

military service are already under

control of the Federal government.

Most of them are at Mexico City,

where they were taken by Gen. P.

Felix Calleja, president of Mexico,

after the new government.

MEXICALI (Lower California)

July 30.—Communication between

the de facto Federal government of

Mexico and the territorial govern-

ment of the northern district of

Lower California, was formally

ended today when Gov. Esteban

Cantu, through Jose M. Guillera, his

Secretary of State, sent a message

to that effect to M. G. Paredes,

representative of the provisional

government at Calexico, Cal., just

across the international line from

Mexico.

Forces of Gov. Cantu here will

be increased tomorrow by a detach-

ment of soldiers from Andrade,

about fifty miles east of Mexicali.

Cantu announced today by Gov.

Cantu.

The Governor said he would send

a detachment of soldiers to Andrade

and bring the soldiers and their

families here. The soldiers, about

100 in number, for the most part

have been recruited in the last two

FIRE IN PAINT PLANT
CAUSES LOSS OF \$75,000.

Loss of about \$75,000 was caused early this morning when a galvanizing iron building of the California Glass and Paint Company at 510 Commercial street was destroyed by fire with its contents. The owner of the plant is A. R. Townsend of 807 North Broad Boulevard, Glendale. The structure was of two stories and occupied about half a block. The three-story brick building adjoining, in which oil paints were stored, was saved. The burned structure was filled with dry paint.

The alarm was turned in by Watchman C. A. Winter. He says he made his regular round at 1:15 a.m. and punched the clock in the room adjoining the dry paint room. Everything was all right then. He heard an explosion fifteen minutes later and says the whole dry paint room seemed to go up in a mass of flame and smoke. He saw no one in the neighborhood and the department officials put the cause of the fire down to spontaneous combustion.

(EXCLUSIVE DISPATCH.)

FREMONT (Neb.) July 30.—

This city is the center of "the

Garden of Eden" section of Ne-

braska, to use a pet phrase of

the local talent. For sixty-five

miles to the west and south, and

thirty-five miles to the north

and east the land is the fattest in

the entire State, as rich in soil

as the best parts of the famous

Illinois and Iowa corn belts.

This year, so old-timers say, the

crops are the greatest within their

memory. At Walnut, one farmer has

vested fifty-two bushels to the acre,

a wonderful yield.

Forty bushels to the acre this

time is quite common. Two farmers,

R. J. Middaugh and A. C. Christen-

sen, yesterday reported their wheat

yield brought \$100 an acre. That's

what forty bushels to the acre at

\$2.50 means.

The city, itself, is a thriving busi-

ness community of 10,000 people, full

of civic bounce and energy, not an

idler on the streets; and it is an im-

portant market for grain; in fact, it is

the home of the largest grain company

in the country.

The average farmer in the region

is more prosperous perhaps than

anywhere. While there are many

twenty and thirty bushels to the

acre, there are relatively few

marginal producers, the men whose

farming is on the ragged edge of

between profit and loss.

Hence the farmer typical in this

section is of interest typical of those

in the best farming districts. Here

are some of the things we find:

(1.) No large tracts of land are

being "hoarded" hands. They

quit over it from Kansas and

Southern Nebraska clear into South

Dakota.

Farming is diversified; the emer-

gency crops are not so high as else-

where; much farm machinery is in

use; the smaller cities are able to

furnish what extra help is needed

in the rush season.

(2.) Few farmers' boys are leav-

ing for the factories. They seem to

be planted in the land more firmly

than elsewhere.

(3.) A small security exists in

PRELATE IS DETERMINED TO
VOYAGE TO IRELAND; WILL
EMBARK ON BALTIC TODAY

(BY A. P. NIGHT WIRE.)

NEW YORK, July 30.—Archbishop Daniel Mannix of Australia, who will leave on the Baltic for Queenstown and Liverpool, plans to sail for Ireland despite Premier Lloyd George's assertion that he would not be permitted to land, his secretary announced tonight.

No information was given of the manner in which the archbishop plans to land, nor of any "distinguished compatriot" who will accompany him.

Member of the crew of the Baltic

today threatened to strike if Man-

nix is permitted to go aboard the

ship tomorrow. The threats were

submitted to officers of the ship and

it was said tonight a meeting will

be held aboard ship tomorrow in

an effort to settle the difference.

The threat to strike was made by

cooks and stewards. Later, firemen

who learned of the attitude of these

employees announced they would

refuse to work if Archbishop Mannix

is not allowed on the ship.

So far as known, Eamon de Val-

era, "president of the Irish repub-

lic," has not engaged passage on the

Baltic.

BELFAST, July 30.—Reports re-

garding the escape from Sinn

Feinners of Brig-Gen. C. H. T. Lucas,

indicate he was accompanied by

twelve or fifteen armed soldiers at

the clash which resulted in his re-

turn to Tipperary.

He was being conveyed from Lim-

erick in a lorry. As the lorry ap-

proached Cool, armed raiders ap-

peared, demanding that it surrender.

The driver put on speed, but the

lorry was disabled by shots.

(Continued on Second Page.)

Gen. Lucas and several soldiers

seized rifles, but before they could

use them, another volley killed two

soldiers and wounded several. The

remainder then surrendered their

arms. The raiders carried off the

soldiers' equipment and were about

to set the lorry afire when another

lorry appeared full of soldiers. The

raiders fled and Gen. Lucas with the

survivors was released.

REDS RUSHING DOWN ON WARSAW.

Old Czarist Generals, Following Hate of Centuries, Driving

Ahead Through Lines of Panic-Stricken Poles With-

out Regard for Orders from Moscow.

(BY GEORGE H. HELDERS.)

(BY CABLE-EXCLUSIVE DISPATCH.)

BERLIN, July 30.—Russian cavalry is thundering on the roads to Warsaw.

From East Prussia come eye-witness reports of a complete collapse of the

Polish front and of the flight of Polish infantry, through which Russian Cossacks

are riding without stopping to take the panic-stricken remainder prisoners.

STATE OF SIEGE DECLARED.

From Warsaw come reports that a state of siege has been declared. All available reinforce-

ments have been sent north to hold the old forts and trench lines in a last stand to defend the

capital. In Berlin reports are current that the Russians do not intend to stop their overwhelming

successful onrush until Warsaw is taken, despite any armistice.

Bolsheviks have occupied Kolno and patrols are pushing toward Novgorod, following the East

Prussian border southwestward in a great encircling movement.

ALL ROADS ARE OPEN.

On the north front all the roads to

Warsaw are open to the Russians

who are advancing quickly. The

Polish soldiers have deserted every-

thing, flying across the fields, some

to the east, others to the west. Be-

sides the explanations set yesterday

there is another that the Russians

believe the reports that France is

preparing to move an army for Po-

land's relief.

Today's reports in the placid

tone in East Prussia is that the En-

tente intends extending the zone

with Allenstein and Marienwerder,

the principal cities, as bases for op-

erations with the Danzig corridor

and the French-British troops.

PIONEER :: ORCHARDIST :: DEAD.
San Gabriel Valley Mourns a Leader.

John T. Lindley.

ASURA, July 30.—John T. Lindley, retired manager of the Slauson citrus holdings here, died this afternoon, after a month of illness caused by an affection of the heart. He was nearly 64 years old.

In the death of John T. Lindley the citrus industry of California has lost a vigorous leader.

Born at Manzanilla, N.M., November 14, 1856, Mr. Lindley was nearly 60 years of age when he came to California. He was the fourth of five children of John and Mary Lindley.

He came to California in 1888, where, with a brother, W. H. Lindley, he engaged in farming enterprises which culminated in large citrus holdings at that place.

He served as postmaster of Ontario for several years. It was while living at that place that he took a lively interest in water development, and much of the present water supply of the Uplands-Ontario district is due to his foresight and untiring efforts.

In 1902 he removed to Asura and became associated with the large Slauson citrus holdings, which were at that time incorporated into the Slauson Fruit Company, with headquarters at 600 acres.

He again he studied water conditions, and was acknowledged as the best-informed man on the subject in the San Gabriel Valley.

He was president of the corporation at the time of his death. Before his principal interest in the Slauson Fruit Company, Mr. Lindley was a director of the A. C. Fruit Exchange, which is a member of the California Fruit Growers' Exchange, and an active member of the First National Bank of Asura.

HEALTH UNDERMINED.
Mr. Lindley's health first broke a year ago, when he underwent an operation. He recovered from this, but suffered from a muscular affection of the heart, and for the last month was confined to his bed.

He was married to a woman who preceded him in death. He is survived by the wife, Mrs. J. T. Lindley, and four children, Mrs. Mary, Mrs. John T. Jr., and James, all living at home.

Funeral services will be held in the St. Francis Church, Interment in the Oakdale Cemetery.

FOCH TO VISIT UNITED STATES.

Hero of France Will Arrive Early Next Spring.

Trip to Mark Anniversary of Declaration of War.

Distinguished Soldier is Anxious to See America.

(BY CABLE-EXCLUSIVE DISPATCH.)
PARIS, July 30.—It is understood here that Marshal Foch intends to visit America next year to commemorate that country's entry into the war.

He plans to be in the United States on April 6, next, the fourth anniversary of the American declaration of a state of war with Germany.

The marshal is very anxious to see America, but it is considered best for him to postpone his visit until after the American election. Thus his arrival will be after the inauguration of a new President.

The visit to America is bound to arouse the deepest interest in France and all over Europe, for in Foch the French have a man of genius of whom they are justly proud. Special deference is paid to Foch not only in France, but throughout Europe.

The cosmopolitan crowd that gathered in the dining-room of the Imperial Pavilion Hotel at Boulogne paid little attention to the arrival of Premier Lloyd George and Millerand during the Allied seaside conference, but all rose spontaneously to their feet when Foch entered.

The marshal desires very much to go to Poland and is only restrained with the greatest difficulty from doing so. Gen. Wiegand is the military member of the Anglo-French mission, but if the situation develops into military operations, Marshal Foch will probably personally undertake direction of the campaign.

Marshal Foch has received several invitations to go to America this autumn, but has been compelled to refuse them. France, however, will send America another military envoy in the person of Gen. Nivelle, who will be charged to renew the expressions of France's gratitude for America's help in the war.

Gen. Nivelle plans to arrive in the United States by Thanksgiving Day.

The World Today

By W. B. Stringfellow
Real Estate Officer, Los Angeles Trust & Savings Bank

A San Francisco capitalist, who owned considerable property in and about Los Angeles, was a recent caller at the Real Estate Department of The Los Angeles Trust and Savings Bank.

Among his properties was an office building in the north end of town, which we found upon investigation was about one-half filled with tenants and in a generally rundown condition.

The owner had not seen the property for some time and admitted that he had left the management in care of an inexperienced person. He asked us to take over the care and management of this property for him.

We found, upon investigation, that the roof was in bad shape, and this we repaired. We painted the window casings and cleaned the brick on the outside, put on an extra janitor, cleaned up the hallways, got the windows washed, and began to tone up the appearance both inside and out.

Through very careful management we have succeeded in filling this building to the extent that it is now 90 per cent filled with good tenants, who pay their rents promptly.

Our client has expressed himself on numerous occasions as taking new hope for the neighborhood, and we have made this property return an income on the investment, where before it was a deficit.

Business or professional men who have been searching for months for suitable offices can testify to the fact that it was not an oversupply of offices or office buildings that put this office building in question in its former condition as to tenants. It was simply the fact that no business or professional man would for a moment consider occupancy of any part of an office building that was not presentable. His first demand is for a location which will prove attractive to those with whom he does business. His second consideration is for a place of business fit for not only himself, but his associates and employees.

The moral is plain. If you have tenants, see that someone or some unit eminently fitted is placed in charge. See that that person or organization has all the necessary qualifications to give satisfaction. Unless you can attend to every detail yourself, and unless you are experienced in this line, do not try to do it yourself. The Real Estate Department of The Los Angeles Trust and Savings Bank has the qualified personnel and the necessary facilities. Drop in and talk it over with the writer. It will mean money saved to you!

ROADS ASKING HIGHER RATES WILL HAVE HEARING MONDAY.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, July 30.—The application of the common carriers of the State for an increase in freight rates, to bring them into harmony with interstate rates, will be heard next Monday by the Railroad Commission, sitting en banc.

Practically all of the steam railroads, electric roads and boat lines operating in California have joined in the application, asking that the commission make an award based on the rate findings of the Interstate Commerce Commission in regard to the petition of western railroads for a 23.91 per cent increase.

A later hearing will be held in Los Angeles. Commissioner Loveland will hear the application of the American Railway Express for increase in express charges in San Francisco August 26.

MOTOR TRUCK CONVOY REACHES LITTLE ROCK.

(BY A. P. NIGHT WIRE.)
LITTLE ROCK (Ark.) July 30.—The United States motor truck convoy touring the Bankhead highway from Washington to San Diego, Cal., arrived here yesterday and will leave tomorrow for Texarkana.

The convoy, commanded by Maj. J. J. Franklin, is composed of fifty-two motor vehicles. Because of the roads the convoy is ten days behind schedule.

GIRLS CHOP WOOD IN SCHOOL FUEL CRISIS.

(BY A. P. DAY WIRE.)
AURORA (Ill.) July 30.—Girls at the State Industrial School at Geneva went forth as woodchoppers today, laughing and singing as they entered upon their tasks. A lack for them, it was serious business for the school, which is running short of coal and has no definite winter supply in sight.

HINTS AT OVERTURN OF CANTU.

Mexican Consul Here Believes People of Territory Likely to Oust Governor.

Important developments within the next twenty-four hours in the Lower California situation were hinted at late yesterday by Eduardo Ruiz, Mexican Consul in this city.

Although declining to assert definitely what the nature of probable events might be, he intimated that it would be no surprise if the people of Lower California themselves demonstrated "that Gov. Cantu's position is weak at the bottom" and that aid from the Federal troops said to be on the way to Cantu's territory would not be needed in ousting the Governor.

In fact, Mr. Ruiz disclaimed having knowledge that any troops are now bound for Lower California. Cantu's role, as an alarmist, he explained, might easily be for political purposes—might even be for the purpose of attempting to gain aid from Mexican States in promoting a revolution against the Progressive party now in power.

"Political aspirants who have flocked to Lower California," the Consul said, "are using Cantu for a mouthpiece. They are using his own words would have no weight, they have gained his confidence and are having him talk for them. He has had much bad counseling."

Talk of an invasion by the De la Huerta government or imposition by the Obregon movement is ridiculous. There can be no invasion because the Federal government has a right to send troops to a Territory. And the Progressive party is trying to aid the masses."

Reports that orientals in Lower California have indicated their wish to assist Gov. Cantu were discounted by Mr. Ruiz. They will be aided almost solely by their consular representatives, he said, and these are known to be opposed to Cantu.

GREAT BRITAIN AND FRANCE OUTLINE TERMS TO RUSSIANS.

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, July 30.—The limitations which Great Britain and France would put upon soviet demands of Poland in the arranging of an armistice are set forth in a notification which has been dispatched to the Warsaw government by the British and French governments. It was learned here today.

Poland requested the views of Great Britain and France on possible armistice terms and the governments at London and Paris have notified the Polish government that they will not permit Poland to accept possible soviet armistice demands involving:

- First—Whole or partial disarmament of Poland.
- Second—A change of policy in the Polish government—dictated or brought about by the soviet.
- Third—Acceptance by Poland of a boundary line less favorable than that provisionally drawn by Premier Lloyd George.
- Fourth—The use of Poland as a bridgehead, in any sense, between Germany and Russia.

AMMUNITION FOR WARSAW.

As bearing on the military situation, it develops that vast stocks of munitions from the Allies are moving toward Warsaw today from Danzig, on the Baltic, and from Rumania and Czechoslovakia. These munitions were for the most part originally dispatched for the army of Gen. Denikin, but were delayed on the way until too late to be available for his use. The munitions being sent from Danzig, however, were shipped recently for the special use of Poland. Other munitions are expected to be in process of shipment from France and Great Britain for Poland within a few days.

Hungary has asked permission of Great Britain and France to attack the soviet army. Such an attack would involve permission, likewise, to reorganize the Hungarian army, the demobilization of which was provided for by the Hungarian peace treaty. The Allies are hesitating over Hungary's request, according to a high French official, because they fear Hungary would expect too many concessions in the terms of the treaty by way of amelioration.

Puritan
Avoid Risk When You Buy

The economy in buying a whole ham is easily understood when you consider that your dealer must ask good prices for choice slices in order to guard against losses on the less salable portions (the shanks and ends).

But you perhaps hesitate to buy a whole ham for fear that you may get one too salty or otherwise unsatisfactory in taste.

You will avoid all risk if you specify Puritan, for every Puritan Ham is always mild, tender and of excellent flavor.

RAISIN GROWERS GIVEN COMMISSION DECISION.

Federal Trade Body Makes Recommendations to Prevent Action Under Federal Antitrust Laws.

By ROBERT H. ARMSTRONG.
(EXCLUSIVE DISPATCH.)

WASHINGTON, July 30.—Three peaceful ways of avoiding action under the Federal antitrust laws have been submitted by the Department of Justice to the California Raisin Growers Association.

First, accept the exemption of Section 4 of the Clayton Act, which permits agricultural or horticultural associations, organized for mutual help. Such organization is typified by most of the orange growers' exchanges in California.

Second, correct some of the practices involved in price-fixing and exclusive sales contracts to comply with the Sherman law.

Third, dissolve.

Acting Attorney C. E. Ames said that the department was contemplating no immediate action against the company of the growers, and future action would depend on the position of the company and the growers to meet the recommendations of the Federal Trade Commission report, which has been transmitted to the raisin producers with the suggestions of the department.

ANNOUNCEMENT MADE.
Judge Ames authorized the following announcement:
"On September 16, 1919, the Department of Justice required the Federal Trade Commission to make an investigation of the California Raisin Growers Association in order to ascertain whether that company, first, is obtaining and maintaining more than a fair and reasonable price for its products; and, second, under section 4 of the Federal Trade Commission Act, to make recommendations to the department in order that the corporation in order that the corporation may maintain its organization, management and conduct of business in accordance with law."

(A) Cancellation of all contracts fixing selling prices on the condition of exclusivity.

(B) Separation of plants purchased or leased from competitors so far as may be necessary to insure freedom of competition.

(C) Abandonment of "firm-at-opening prices" and "guarantee against decline" devices in marketing.

(D) Or as the alternative under the Sherman law—dissolution.

The commission also recommended that the company should be required to continue to comply with the provisions of the Sherman law.

Street Car Conductor Loses Good Looks in Fray.

CHICAGO, July 30.—"Where's I meet you, and what time," whispered H. C. Brumback, a street car conductor, as he cast a languishing look upon Miss Louise Elmer, who was about to alight from the car.

"Don't get fresh," she warned Brumback, as he cast a languishing look upon her. "I'm not a street car conductor, I'm a woman."

He also set his cap at a still more jaunty angle over his patent leather hair. He permitted three fares to alight by while he amused Miss Elmer from the car, whispering assurances of his undying devotion and, incidentally, squeezing her very shapely arm.

He was rewarded by a vigorous slap in the face, whereupon he turned catman.

"If you want to get off the car so bad," he muttered, "why get off."

HERDER SHOT; SHEEP KILLED.

War of Colorado Cattlemen and Utah Sheepmen On.

Morning Attack Made Near Vernal, Utah County.

Fourteen Hundred Animals Driven Over a Cliff.

SALT LAKE CITY, July 30.—With the shooting of John Bernell, a sheep herder, four miles from the K ranch, just over the State line in Colorado, early this morning and the running of 1400 head of sheep over a cliff, the war between Utah sheepmen and Colorado cattlemen was renewed, according to advices received here from Vernal, Utah county.

WAR A RESULT.
War broke out as a result, with attacks made by Colorado cattlemen on sheep herders, who were bound and gagged as the marauders swept down on them as they slept. When the herders managed to free themselves, they communicated with Vernal authorities and posted were organized to attack parties had disbanded.

For the last two months there has been intermittent warfare. The government is understood to intend to effect a settlement, but so far the guilty ones have remained at large.

About 3 o'clock Friday morning, according to a statement made by Dr. Price, who, with Bernell, occupied the sheepherders' tent, Bernell crossed from his bed when he heard a commotion among the sheep. Bernell, according to Price, thought a coyote had invaded the flock.

With a view to frightening the supposed animal, he shot twice in the air. The next moment a man rose from the ground about ten feet in front of Bernell and shot him twice in the stomach. Price sprang from his bed, carried Bernell to his tent, administered first aid and then started four miles to the K ranch to telephone to Vernal authorities.

As Price sped toward the ranch he observed a band of horsemen disappearing into the interior of Colorado. He also observed that 1400 sheep, which he and Bernell were tending, had been driven over a cliff by sheep herders.

The sheep belonged to Will Bacon, who employed Bernell and Price. Mr. Bacon, in common with other Utah sheepmen, is said to have a permit from the government for the grazing of his sheep on the Northern Pacific Railway freight lands in Colorado, where much fighting between Utah and Colorado interests has prevailed for the last few months.

WHOLESALE MURDER SUSPECT NOW HELD.

ANN JOSE SHERIFF GETS THE STORY AFTER ALLEGED ATTEMPT AT CRIME.

SAN JOSE, July 31.—William Durnan, a laborer on the Dale ranch near here, is suspected of being a wholesale murderer, according to Sheriff George W. Lyle, who announced tonight that Durnan attempted to kill Peter Quier, a fellow-laborer, a week ago, after a quarrel over some chores.

Lyle said that Durnan has admitted that several of his relatives died under suspicious circumstances in North Carolina and near New Orleans.

Lyle did not succeed in getting the names of the towns in which these deaths occurred, he said, but he said that several of his relatives died under suspicious circumstances in North Carolina and near New Orleans.

Quier recovered after a short period of extreme illness. Lyle said that the State laboratory found traces of poison in the sugar used in Quier's cabin.

Bubble Punctured;

Goat Gland Boss
Leaves City Flat.

MILFORD (Kan.) July 30.—The
big city bubble that began to take
on air when Dr. John E. Brinkley,
goat gland specialist, put this little
town on the map by announcing he
could restore youth to the aged, has
burst.

The bubble was punctured when
Dr. Brinkley left for parts unknown
two months ago. At that time, ac-
cording to reports from citizens of
the village, the doctor left town
after an altercation with his father-
in-law.

SHOOTING UNCOVERS

MAN'S DOUBLE LIFE
MAINTAINED TWO HOMES ONLY
TWO BLOCKS APART; GOT
SMALL SALARY.

KANSAS CITY (Mo.) July 30.—
When Mrs. Emma Jones, 915 Eighth
street, Thursday that a woman
giving the name of Mrs. Emma
Jones, her address 1608, Fifth
street, had been sent to the
General Hospital with a bullet in
her abdomen, and that Fred Jones,
her husband, was being held in connection
with the shooting, she began making
inquiries.

She verified the shooting and then
she learned that Fred Jones was a
special officer for the Terminal Com-
pany. Mrs. Jones' husband, she
said, was Fred, and furthermore, he
was employed as a special watchman for
the Terminal Company.

Whereupon, Mrs. Jones hurried to
police headquarters and told her
story to Capt. Anderson, having as-
sured herself that Fred Jones was
her husband and was one of the men
who had been sent to the hospital.

Mrs. Emma Jones declared she
was married to Jones nearly two
years ago, and had no other home
until she learned that he was maintain-
ing two households, the second of
which was two blocks from the first.
The rate fixed for Fred Jones
was one over which she was not
willing to pay. She said she had
one of the two places on the 11th
month salary.

Mrs. Emma Jones told Police Cap-
tain Anderson that Jones frequently
told her that, due to the small
amount of money he was earning, he
was compelled to work overtime and
double shifts, all of which were
from home a great part of the time.

DR. AXSON AT WHITE HOUSE.

Los Angeles Man There for
Special Treatment.

President's Condition Real
Shock to Relative.

Invalid Chair Again Brought
Into General Use.

BY ROBERT B. ARMSTRONG.
WASHINGTON, July 30.—Dr.
Axson, brother-in-law of President
Wilson, is a guest at the White
House.

Dr. Axson, whose home is in Los
Angeles, is recuperating from a
nervous breakdown. His visit is for
an interview with the specialists
recommended by President Wilson
as to his own physical condition.

Dr. Axson is a brother of the first
Mrs. Wilson, and is an intimate per-
sonal friend of the President.

While Dr. Axson has been gravely
ill himself, it is certain that he
was grievously disappointed in the
condition of the President, who has
shown no improvement for months,
and is today in a poorer condition
physically than at any time since
his illness began.

According to some of the most
important political callers who have
seen the President during the last
few weeks, the President is unable
to walk across the room, and uses
an invalid chair almost constantly.

One leg and one arm are useless,
according to these callers, and the
President's complexion shows the
four months of suffering in a pallor
that is ashy gray and constant.

Special arrangements have been
made for assisting him into the
White House automobile, by means
of a series of steps, and so great
are the inroads on the President's
health that the small exertion of
using these steps causes him to re-
quire a resting period after each
step.

Even at the White House are
made to minimize the seriousness
of the President's condition, but
these best informed will not be
surprised if serious complications
develop. Months may intervene on
the other hand without any great
change in the condition of the Chief
Executive.

Specialists familiar with the mal-
adies which beset the President
say that in months of no apparent
change, may occur unless there
arises some situation arousing the
patient to overeffort or irritation.

In such crises developments may
be rapid and serious. Political
friends of the President are
deeply worried, and hope to
keep the irritations and vexations
of the campaign far from him per-
sonally, for fear of the effect of
the strain on his already overwrought
physique.

SORRY FOR HUSBANDS OF CARD CLUB WIVES.

NEW YORK JUDGE GIVES BLUNT
TALK TO WOMAN CAUGHT
PLAYING POKER.

NEW YORK, July 30.—"I pity the
poor hard-working husband who
comes home at night and finds his
supper uneaten, his wife away play-
ing poker and his hard-earned money
spent over a gambling table."

The speaker was Magistrate To-
bins in Washington Heights court.
Before him was Mrs. Florence Schick-
ler, 540 West One Hundred and
Forty-third street, in whose apart-
ment detectives yesterday afternoon
found a dozen women engaged in an
ardent search for a royal flush.

The magistrate decided to hold
her in \$500 bail for trial in General
Sessions.

"I have no objection," he said, "to
the social features of card games,
but it is a bad way to pass an after-
noon or an evening—in a friendly game
or an evening—in a friendly game.
But it appears that this was a busi-
ness proposition; that all income was
derived from this game. This sort of
thing works a hardship on the hus-
band. Because his wife is foolish and
throws his money away he gets dis-
couraged and downhearted and loses
interest in life."

THINK ARRESTS NIP TRAFFIC IN LIQUOR.

NEW YORK, July 29.—In the ar-
rest today of three men, revenue
agents believe they have the ring-
leaders of a gang of men who are
working with two Department of
Justice agents in the traffic of li-
quor. The trio were arrested and taken
to police headquarters early today.

It is charged that the men arrested
offered \$200 as a bribe to the re-
venue officials, and when they found
this "bribe" was not accepted, they
were arrested.

The two Department of Jus-
tice agents said to be involved with
the trio were taken into custody. It was stated
that the two men were taken into custody.

TO WED ILLINOIS MAN.
Daughter of Los Angeles Contractor
Engaged to State Official.

SPRINGFIELD (Ill.) July 30.—
Announcement was made here to-
day of the engagement of Sheldon
L. Howard, chief of the division of
vital statistics of the State depart-
ment of health of Illinois, with
headquarters here, and Miss Helen
C. Roberts, a clerk in the office
since she left the service of the
Federal government two years ago
as an investigator during the war
for child welfare in cities. Miss
Roberts is the daughter of Henry
C. Roberts, 1255 Fourth avenue,
Los Angeles, former vice-president
of the Avery Farm Implement Com-
pany, manufacturers of Peoria, Ill.,
and now a member of Cooper & Co.,
building contractors of Los Angeles.
Mr. Howard was a captain in the
Fifth Massachusetts Volunteer In-
fantry during the Spanish-American
War in 1901, and was in the 66th
cavalry training camp at Fort Sheri-
dan, Ill., in 1917. He is a gradu-
ate of the Massachusetts School of
Technology at Cambridge.

Wool Consumption Drops.
WASHINGTON, July 30.—A sharp
drop in wool consumption, amount-
ing to approximately 17,000,000
pounds in June as compared with the
average consumption for the preced-
ing months of this year, was an-
nounced today by the Department of
Agriculture's Bureau of Markets.

WOMAN LEADS ROBBER BAND.

Caught in Male Attire Near
Rifled Freight Cars.

Whole Gang Rounded up With
Much Loot in Shanty.

Detectives With Drawn Guns
Make Rush from Woods.

HACKENSACK (N. J.) July 30.—
A band of Erie freight train robbers
with a good looking woman armed
in men's clothes as the ring-leader,
was rounded up and captured in the
rendezvous at East Paterson and
safely lodged in Hackensack jail.

The prisoners are Mrs. Anna
Lellett, 24 years old; Jennie Vander-
well, 22; Jacob Vanderwell, 23;
John Coagrove, 25, and Jack Daley,
24. Erie detectives have for months
been trying to locate the gang of
"thieves" who have systematically
been robbing freight cars at Passaic
Junction, where they are switched
from the main line to the Susque-
hanna tracks.

Detectives of the Erie force after
several days of investigation today
decided that a shanty near the junc-
tion was being used as headquarters
for a gang and sent to Hackensack
for reinforcements.

Six men were placed at con-
venient spots in the woods and a
close watch was kept on the shanty.
At 9 o'clock when a freight train
reached the junction five persons
were seen to leave the house and
at once became active about the
train. Several large parcels had been
carried from a car into the shanty
before the train started.

With drawn guns the detectives
approached the building from all
sides and dashed into the front
door, each man covering one of the
occupants. Mrs. Lellett was found
in man's attire, and she proved the
most vicious of the gang and fought
against being handcuffed.

Mother Induced to Fly; Becomes an Airplane Fan.

KANSAS CITY, July 30.—Flying
at last has received the unanimous
indorsement of the Outland family.
The airplane, favored at first only
by Dr. John H. Outland, but criti-
cized, if not condemned, by Mrs.
Outland, Mary, 12 years old, and
John H., Jr., 5, came to favor only
after each of them had made
flights.

Even when his immediate family
tolerated it, the plane had one con-
firmed enemy. It was Mrs. Thomas
Outland, mother of the gurgling
sportsman. She wrote from her
Wichita home and reiterated on a
visit here three weeks ago that her
son should quit playing with fate.
The family suggested that she
make a flight.

"Then if you think it unsafe I'll
sell the plane," said the doctor.
"Me fly? Trust my 71 years to
such a contraption?"
Darlingly, if regretfully, she con-
sented.

In the flight she removed hands
from her eyes and actually glanced
down.

"How about it, 'mother'?" he
asked when on the ground again.
"Do I have to scrap the machine?"
A day later she was induced to
make another flight. The next week
she returned to Wichita. She for-
got to order her son to dispose of
the plane.

POLICE RECAPTURE A NOTORIOUS PRISONER.

OAKLAND, July 30.—Carl Otto,
life-term prisoner, who escaped
May 27 from Folsom penitentiary,
was recaptured here today after a
fierce struggle.

Otto was clubbed almost to in-
sensitivity by Police Inspector John
Mulhern. The attempt was made
to shoot the officer. Otto's revolver
failed to discharge.

Mulhern saw Otto in a pawnshop
and grappled with him. Bystand-
ers came to the officer's assistance
and the prisoner was subdued after
being severely beaten.

Two successful prison breaks
have been made by Otto. In July,
1917, he escaped from San Quan-
tin, where he was serving fourteen
years for a murderous attack on
R. V. Whiting of San Francisco,
whose home he had attempted to
burn.

He was recaptured in San Fran-
cisco and sentenced to Folsom for
life. On May 27, last, Otto drove
a locomotive through the prison
gate at Folsom and escaped to the
underbrush under a rain of bullets
from guards.

as an investigator during the war
for child welfare in cities. Miss
Roberts is the daughter of Henry
C. Roberts, 1255 Fourth avenue,
Los Angeles, former vice-president
of the Avery Farm Implement Com-
pany, manufacturers of Peoria, Ill.,
and now a member of Cooper & Co.,
building contractors of Los Angeles.
Mr. Howard was a captain in the
Fifth Massachusetts Volunteer In-
fantry during the Spanish-American
War in 1901, and was in the 66th
cavalry training camp at Fort Sheri-
dan, Ill., in 1917. He is a gradu-
ate of the Massachusetts School of
Technology at Cambridge.

Wool Consumption Drops.
WASHINGTON, July 30.—A sharp
drop in wool consumption, amount-
ing to approximately 17,000,000
pounds in June as compared with the
average consumption for the preced-
ing months of this year, was an-
nounced today by the Department of
Agriculture's Bureau of Markets.

This is a vertical, high-contrast, black and white image. It appears to be a close-up of a textured surface, possibly a book cover or endpaper. A prominent vertical crease or fold line runs down the center of the image. The left side is lighter and shows a fine, fibrous texture, while the right side is darker and more mottled. There are some small, dark spots and fibers visible throughout the material.

JULY 31, 1920.—[PART I.]

This image shows a vertical strip of a document page. The right side of the strip is dark and textured, while the left side is lighter and also textured. There is a faint vertical line running down the center of the strip. On the far left edge, there is some faint, illegible text that appears to be a list or index of items, possibly related to a book or a collection of documents. The text is too small and blurry to read accurately.

Subpoena Bank to Show
Court Checks of Man Found
in Lady's Tub.

The opening shot in the divorce suit of Mrs. Rita H. Smith against Walter G. Smith, wealthy cotton broker of Blythe, and reputed hero of a bathtub incident, was fired by Mrs. Smith yesterday when her attorneys, Hogan and Boie, obtained from Judge Work a subpoena directing the Security Trust and Savings Bank to produce in Judge Taft's court on Monday all checks and records showing the payment of money by Mr. Smith to Miss Georgina Klendara, with whom Mrs. Smith declares her husband is infatuated.

The attorneys hope by this means to determine whether or not Mr. Smith paid her money. The attorneys believe the bank records will show accounts either in the name of Mr. Smith or Miss Klendara.

The bathtub incident arose when, it is said, detectives employed by Mrs. Smith entered the apartments of Miss Klendara. They say they found Mr. Smith in the tub. Miss Klendara immediately began legal action against the detectives. She was formerly employed as an assistant book-keeper in Mr. Smith's cotton gin at Blythe, it is said.

The purpose of this local organization is to perpetuate the spirit of their overseas service and to prepare themselves for any local service along the lines they followed overseas. Plans were made providing for the social and other needs of the ex-service men and those still in the service.

The officers chosen were: President, Miss Loring Wells (Y.M.C.A. service); vice-president, Mrs. Alta Hitchcock (Y.M.C.A.); secretary, Miss Anne Scott (A.R.C.); treasurer, Miss Edna Earle (Y.W.C.A.); critic, Miss Elma Temple (Salvation Army); auditor, Miss Mary Beard (Y.M.C.A.); eligibility, Miss Katherine Scriven (A.R.C.); activities, Miss Gertrude Brady (Y.M.C.A.); publicity, Miss Elizabeth Hill (Y.M.C.A.).

The Los Angeles organization is the second of its kind to be formed in the United States since the war, the first being the Minneapolis A.W.O.A. The next meeting will be held on the first Thursday of September.

Officers of the State Medical Board yesterday entered the office of Francis F. Prott, a chiropractor in the American Bank Building, and placed him under arrest for practicing medicine without a license. The arrest was made by State Officer Carter and an assistant. Prott was released on \$100 bail. According to Prott, all his records were taken. The preliminary hearing of Prott will be held Tuesday at 2 p.m.

Supervisor Allen of the Angeles National Forest issued a notice yesterday that no fire permits will be issued for use in Every Canyon, a branch of the San Antonio, at its mouth, the property of the North American Irrigation Company, with headquarters at Claremont, and it is the purpose of the corporation's water supply. They are protesting against the issuance of fire permits in the area.

STOCK SHOW TO
INCLUDE RACES.

Directors Decide on Program
for October Event.

Third Annual Exhibit Will be
Greatest Held Here.

Campaign Planned Over West
to Procure Entries.

The third annual live-stock show, to include a brilliant program of racing and other entertainment features, will be staged at Exposition Park from October 2 to 10. Every effort will be put forth by the in charge of arrangements to make this show the greatest held in Los Angeles.

This announcement followed a meeting of officers and directors of the Live-Stock Association in the Chamber of Commerce Building yesterday, where plans were formulated for an extensive publicity campaign and a drive for entries throughout the Western States.

The original purpose of this association, to exploit the educational features of these annual live-stock shows, will be strictly adhered to. This year's show will not only advance the produce of pure-bred live stock, but will afford the public the best entertainment procurable.

Prize money will be announced early next week. J. Russell Miller has been appointed publicity director of the Live-Stock Association, the officers of which are: E. W. Murphy, president; Clinton E. Miller, first vice-president; Harold H. Brady, second vice-president, and Albert M. Paul, treasurer.

The directors are J. C. Adams, Fred H. Bixby, Harold Brady, George M. Brown, Harry Chandler, Edward A. Dickson, T. H. Dudley, R. L. Engle, Herman J. Hauser, Charles H. Hill, H. A. Jastro, R. H. Jeffries, E. Lewis, George Lichtenberg, Clinton E. Miller, E. W. Murphy, Albert M. Paul, Walter M. Rose, Frank Simpson, Walter P. Story, Frank Wistner and H. B. Woodfill.

Acting Immigration Agent Conaty received a wire yesterday afternoon informing him that a party of ten Chinese contrabands and six white men, supposed to be the smugglers, had been captured at Bakersfield, en route to San Francisco in three automobiles.

It was further stated that the contrabands had succeeded in getting out of the Imperial Valley by hiding in a car loaded with cantaloupes, and from there traveling in a truck and the machines to Bakersfield. One of the white men in custody for some time operated one of the smuggling joints in Mexico, it is stated.

From now on young business women going to the Y.W.C.A. camp will leave Saturday afternoon instead of Monday. The camp, which lies two miles above Camp Baldy, will be thrown open to young business and professional women during the month of August and with the closing of the summer courses in the university and schools a large number of students are planning to enjoy an outing and rest at Camp Baldy. Registrations are still open for all young business and professional women of Los Angeles and surrounding cities.

Buttonlath

—A Perfect Bond for Plaster—
Fire Resistant—Prevents Plaster Cracks

The efficiency and economy of Buttonlath is proven not only in the many fine new structures that are being built today.

In hundreds of magnificent buildings that have stood the test of time with practically no expense for maintenance, the beautiful unmarred exteriors offer conclusive proof of the durable qualities of Buttonlath.

In fact, Buttonlath has advantages that no other plaster base can offer,—a tested fire retardant. Weather proof, a perfect sound deadener, it speeds up construction and saves time, labor and plaster.

To insure better walls and ceilings be sure that your specifications call for Buttonlath.

And suppose Gov. Cox never notified?
Again the Pickford divorce case.
We take it that this is one of the busy days with Gov. Quinn.
Peachie Villa has at last recovered. Here is a bunch for the Democrats.
There are the days of the new coffee and self-sufficiency. How power to you.
With the yacht race over, Mr. O. will resume his old job as the map of the world.
Turkey has signed, all right, but she will play the outfield in the League of Nations.
Of course, if Bob La Follette had lived in Ohio he might have secured that Third party nomination.
And Gov. Coolidge did not have a word in his speech of acceptance as to how he managed to get a term for 25 months.
England and France have decided upon a plan by which they will develop the rich oil fields of Persia to two and no more.
Mr. Alameda announces that he will not accept the post of Governor of Lower California. The senior has other fish to fry, we understand.
Rosalind Amundsen is preparing for a five-year trip to the North Pole to "rebut the claims of the Arctic." Yes, that is what Rosalind says.
The April reports show that the private ownership of certain of our railroads are running exceedingly well. The deficit habit is not lost to overcome.
Pasadena players will present the "Merry Wives of Windsor." What is the matter with the merry wives of Pasadena? We take it that there are a lot of 'em.
The Turks who don't like the peace terms say they will fight to the bitter end. The bitter end has been a favorite play in Turkey for a great many years.
Russia needs \$100,000,000 worth of rubles. That is not extraordinary. For years Russia has been something to that neighborhood. They hope to keep up with the Jones next door.
With Senator Harding making his campaign from his front porch, Gov. Cox is likely to utilize his back window. And the Governor accompanied one before national prohibition went into effect.
Senator Harding may come to the Pacific Coast, after all. Such a fit is outlined. If he does it will be a change from a program announced in a letter to a friend in this city some time ago.
"Bailly Wave a Mirage." is the title of an editorial in the columns of the esteemed Galveston News. But in all fairness it must be said that this had been written before the recent primary election in Texas.
It is announced that William G. McAdoo will resign his seat for Cox. But we understand he will keep that pair of patched shoes for running purposes when the election of Senator Harding appears certain.
All sorts of activities are proposed for the coming national campaign, but we hear of no movement to revive the old-fashioned torch-light procession, with the torches running down the backs of the marchers.
The American Legion is setting a bad example by paying off a debt of almost \$500,000. The popular way is to incur the debt and let the creditors hold the sack. That has been the rule with a number of organizations.
The equal suffrage act they have it all fixed for the Tennessee Legislature to adopt the equal-suffrage amendment. In that case they will no longer spell the name of State's capital city "Gadsden."
The Saint Gaudens statue of Abraham Lincoln has been presented to Great Britain, the gift of America. But the question whether it is a good likeness or a caricature has never been determined by the folks who are supposed to know.
George White, the new chairman of the Democratic National Committee, is in New York to open headquarters. Like the well-known Ohio man, he is claiming everything, just as he has done in the past. He is the only man who has been elected to the Fifteenth Congress District of Ohio just before he was sloughed by the Republicans.
If the flush of good health could be purchased by wealth, And the wealth were then given to all;
If the things that we see And now want were free, And to have them we had but to call;
If to count up the cost Were an art fully lost, And our air-castles only were paid, And all months were gay—
With the sunbeams each day— Do you know how we mortals would feel?
We would use our last breath In welcoming death, And wishing produced all we crave; And we'd mourn at each birth, And have peace on the earth, Assured when we all reached the grave.
If all hearts were true, There'd be nothing to do, And victories would not be in style, The joy in real life, The just and the strife, That makes this old earth worth the while.

PAULIST CHORISTERS.

BOY SINGERS CAPTIVATE AUDIENCE AT TRINITY.

By Joanne Redman.

The Paulist Choristers, conducted by Father Finn, attracted a large house at Trinity Auditorium last evening, in spite of the mid-summer season. Father Finn brought with him John Finnigan, tenor soloist of St. Patrick's Church, New York, who, at the close of his solos, was heartily applauded and honored. He sang the popular "Golfie Aria from 'La Boheme,'" "Somewhere a Voice is Calling," and "Down St. Peter's Road," a Russian folk-song.

The choir is in good form and the two boy sopranos who acted as soloists were very successful. Billy Probert and Thomas Costes are new names. I believe, and while the delightful voices of the sopranos with the choir two weeks ago were missed, still, these two small fellows were capable, being, of course, admirably trained. Master Probert sang two solos, "On Wings of Song" and Dvorak's "Song My Mother Taught Me."

JESSE LASKY HERE.

SIGNS FAMOUS AUTHORS TO WRITE FOR SCREEN.

By Grace Kingsley.

Few ambassadors returning from missions abroad have made more thrilling announcements than has Jesse Lasky, yesterday, on his return from Europe, where he succeeded in the diplomatic mission of getting big names to write stories directly for the screen. Not only this, but the majority of these English writers are coming to California to make a thorough study of the requirements of film writing. It seems that in order to do this, Lasky not only used his silver tongue but his golden purse, as he says that American producers are willing to pay more for a story than for a picture. A hundred pounds sterling is considered a pretty good pay for a film story over there. Among the authors are Sir James M. Barrie, Arnold Bennett, H. G. Wells, Henry Arthur Jones, Robert Hichens, Edward Knoblauch, E. Phillips Oppenheim, E. Temple Thurston, Max Beer, and R. C. Carr. The famous French woman writer has also been signed, but due to certain business reasons her name cannot yet be announced.

Mr. Lasky witnessed the formal opening of the London studio of the Famous Players-Lasky, this being the first studio ever opened abroad, furnished with up-to-date American equipment. Hugh Fox, the already well-known writer, is working on "The Great Day" from the Drury Lane melodrama, part of the scenes of which are being made in Switzerland, as the story calls for an Alpine setting. This is, in fact, to be a part of the Lasky policy, to film stories in the exact locales and with the native atmosphere of the original. Mr. Lasky declaring this is necessary if America is to keep her stand as the big world supply source of pictures. The building of a studio for Lasky in Bombay has also been commenced, where some of the Kipling stories will be filmed.

"This policy of engaging the biggest authors to write directly for the screen, and of filming stories in precise locales, is really revolutionary," said Mr. Lasky. "I want to say the English writers all asked that they be given six months in which to prepare their stories. This is unlike a lot of American writers, who have seemed to want to sell their plots by the dozen." Sir James M. Barrie will be the first of the authors to arrive. He will come in October, and "Peter Pan" is to be made at the Lasky studio. It isn't yet decided whether Madame Adams will play in it, but Mr. Barrie has told her she should do so if she wished. It all depends in fact on whether she likes herself on the screen after she has seen her tests. Mr. Barrie has also written another story for the screen which Mr. Lasky brought back with him, and "Mary Rose," his latest play, is to be filmed in Scotland. Arnold Bennett will come here as Mr. Lasky's guest to study screen writing. Edward Knoblauch has already planned an episode story to be produced in the London studio, after which he will come to New York to witness the premiere of his latest play, "One," and then travel to California to study screen technique.

H. G. Wells did not agree to write an original story, but gave permission to the Lasky people to pick from all his short stories and novels. An original story is being written by Robert Hichens, who will come to this country next month. Henry Jones is 70 years old, he is so interested in the art of picture making that he will probably devote the rest of his life to writing for the screen, and will come here next year to study and write.

DRUG CLINIC IS DEFENDED.

Health Chief to Submit Report on City Dispensary's Good Work.

As a result of a demand made yesterday by Councilman Farmer for a report as to the results secured at the city's narcotic clinic in the Temple Block, Health Commissioner Powers said last evening that all the facts will be submitted at once. "The clinic is a new thing," said Dr. Powers, "and I believe that in time it will prove of great benefit to the city. We are now treating more than 200 addicts each day and the amount of drug each requires is being gradually reduced. "In time many of these unfortunate people will be ready to be sent to hospitals for the final cure. We have made no cures yet for there has not been time. There may be cases where addicts have secured drugs and taken them out and sold them, but under the direction of Dr. W. H. Bucher, who is in charge of the clinic, this practice is being eradicated and the progress of each case is fully watched. An average day's record at the clinic was last Wednesday, when 225 cases were treated, and the addicts supplied with 1773 grains of morphine. The clinic is more than self-supporting. Since it was established, March 5, last, the receipts for drugs sold have been \$18,429.55, while the expenses have been only \$18,442.82. Councilman Farmer said the only object he had in making his request for the facts was to learn if the clinic is getting results.

directors are to be working at the Lasky plant here by September 1. Tonight's Night.
There's going to be a lively dance out at Brunton studios tonight, given by the Assistant Directors' Association. In view of the weather, it's to be a barn dance. A number of well-known picture people, both directors and stars, are to be present.

Mrs. Ince Leaves.
Mrs. Thomas H. Ince, wife of the producer, left last night for a three week's trip to Alaska. Mrs. Ince is accompanied by two of her young sons, William H. Thompson Ince and Thomas H. Ince, Jr.

John Ince to Direct.
John E. Ince will direct the Metro all-star production of "All Men Are Vallant," a newly-purchased story written by Ben Ames Williams. The script was composed by Edward Lewis, Jr.

Al Kaufman New Company.
Albert Kaufman, associated with Marshall Neilan's productions, which are being released through First National, is now on his way to Honolulu to establish a military training school for the Hawaiians at Kuna. Col. Clark was formerly in charge of the photographic division of historical records of the great war. It was in France, that Kaufman was assigned to Col. Clark's staff, with the rank of captain.

Film Men Here.
Col. Fred Levy, franchise holder of Associated National Pictures, Inc., for Kentucky and Tennessee, is visiting the various producers in Los Angeles, who are distributing their product through First National. Col. Levy was the guest yesterday of Sol Lesser, Western executive for that organization.

NOVELTY PROGRAM WITH "MARRIED LIFE."

Three distinct novelties personally produced at his studio by Mack Bennett are to enhance the accompanying program to "Married Life," which opens at the Kinema today. They comprise a novelty short reel showing the latest of the Bennett beauties in fancy costumes, a personal conducted tour through the Bennett studio, showing every department of the fun factory, and a setting of the stage constructed for the prologue devised by Jack Cullott.

ROSEMARY POSE.
Rosemary Theby, who co-stars with Henry B. Walthall in Allan Dwan's "A Splendid Hazard" at the Victory, is occupying her spare time sitting for a series of six water-color paintings which are being made by Rene Denzel, the French artist. They are to be placed on exhibition in a New York art academy.

HIERS IN SHORT COMEDY.
Walter Hiers in "The Soft Soap," a two-reel comedy, directed by Hugh McClung, is arousing laughs at Philharmonic Auditorium, preceding the prologue of dancing mermaids and wood-wind music that is augmenting Capt. Leslie T. Peacock's undersea feature "Neptune's Bride," presented by the Orpheum Film Company.

(SPECIAL DISPATCH.)
LONG BEACH, July 30.—Mrs. A. R. Temple of Arizona, a tourist in Long Beach, has addressed a communication to the local Chamber of Commerce requesting the officials of the commercial body to issue a cease-firing order to the Pacific Fleet engaged in target practice off this city because the noise makes her pet building so nervous.

he shakes all over. The communication, which has been turned over to Postmaster Desmond, the only local government official, in full is as follows:

"I have a very fine pet building who is greatly annoyed by the firing of these miserable old guns which the boats have been firing off at target practice. They annoy me, too, but I can stand it, but I cannot bear to see my poor dog so frightened he shakes all over.

"Isn't there something you can do to stop it, this noise which disturbs and frightens the city's tourist guests? I am from Arizona and we are never annoyed like that in my town.

"MRS. A. R. TEMPLE."
L. B. Smith and R. A. Vawter, Long Beach ex-service men, suggest it would be a much easier job for Postmaster Desmond to have the building shot.

TO BUILD NEW HOTEL.
Los Angeles capitalists are said to be launching a project to erect a ten-story, million-dollar hotel on the corner of Atlantic and Ocean avenues. Architect Harold Cross of Los Angeles has been engaged to draft the plans for the big structure.

CIDER HAD A KICK.
[LOCAL CORRESPONDENCE.]

SANTA MONICA, July 30.—That the cider they have been selling has caused the drunkenness of a number of boys in Santa Monica, is the accusation brought against H. E. Henry, A. Otto, C. Roper, P. Lambert, B. Matell, and S. Casar, who have been ordered to appear before U. S. Commissioner Long.

The charge was brought by H. L. Kriste, of the Federal authorities, and Officer William Sandlin of Santa Monica, who say that the six defendants have been selling cider at their concession stands along the Ocean Front for some time, and that it contained from 5 to 7 per cent of alcohol.

(LOCAL CORRESPONDENCE.)
PASADENA, July 30.—That the Southern Pacific Railroad has taken over in its entire the Fruit Growers' Express, owning a large fleet of refrigerator cars, and will henceforth operate these cars on western lines of the Southern Pacific, to move California fruits and vegetables, was the announcement made here today by G. W. Wetherby, freight and traffic agent of the Southern Pacific Company here.

Mr. Wetherby stated that acquisition of the Fruit Growers' Express cars will greatly relieve the car shortage on the Coast, for which California shippers will be glad. In the past the Fruit Growers' Express cars were used all over the country, but were concentrated on the Coast.

The Southern Pacific was previously a stockholder in the Fruit Growers' Express, but did not have a controlling interest. The consideration whereby it acquired the rolling stock was not made known.

SALARIES UP; FORCE CUT.
Salaries of city officials and employees were raised by the City Commission today, but in order to meet the increased cost it was decided to pare down the personnel to the bone. Many municipal heads will fly off, it is said, but for the most part will be the smaller fry. Thirteen men will be dropped from the fire department, four from the police force, ten from the park department and other departments in proportion.

Rank and file of the fire and police departments, park department and other city bureaus will receive salary increases of \$15 to \$20 per month. Chief of Police McLaughlin's salary is increased from \$115 to \$125 a month; that of Fire Chief E. P. Coop from \$125 to \$135.

Efforts today to name a new city controller, to replace Lester N. Bryce, resigned, failed. Chairman A. L. Hamilton nominated for the post J. W. Price, a former City Auditor and now general auditor for the Al G. Barnes Circus. The motion failed to carry, two Commissioners voting for, two against, and the fifth being excused from voting. It is understood a majority of the Commission desires to make C. W. Keiser, manager of the city light and water department, controller, at no extra salary. Mr. Keiser's salary was recently increased from \$5000 to \$6000 a year.

OF SQUIRREL DOG.

REDONDO BEACH, July 30.—

City Marshal J. V. Henry is seriously considering the addition of a squirrel dog to his police force. Following a complaint which had been sworn out against two boys in the Grand district, Henry sought to arrest them. He was forced to park his automobile some distance from the boys' home because of the sand. When he arrived the mother, according to reports, knew nothing about the boys or where they were. After a short parley the officer started away. Happening to look up into a huge eucalyptus tree in the yard he was astounded to see the lads, like squirrels, perched on a high limb, some forty feet from the ground.

JUDGE OF PROBATE
COURT GIVES TANLAC
STRONGEST PRAISEAfter Long Struggle
Judge M. F. Short Re-
gains Health—Makes
Public Statement in
Hope of Benefiting
Others.

It is seldom indeed that men of prominence, especially men who hold high office, willingly express their indebtedness to a proprietary medicine. However, when a medicine obtains that singular purity and efficiency shown by the uniform preparation, Tanlac, statements from our best citizens are to be considered thoroughly commensurate with the good that is being accomplished among the people of our Commonwealth.

Judge M. F. Short, of 1026 South Hickory St., Ottawa, Kan., who has held the honorable position of Probate Judge in Franklin County for two terms and has been true to every trust imposed in him, said in a recent statement concerning the great good he derived from the use of Tanlac:

"I have never used any medicine that went right to the spot. Tanlac did in my case. Nearly a year ago I had an attack of the flu and was so weak after it that I couldn't walk even a short distance without getting tired and out of breath. I also had a severe headache that bothered me a great deal. My appetite was very poor and I lost weight. I did not sleep well at night and just felt tired all the time. I tried several medicines said to be good for restoring strength and energy, but none of them seemed to reach my case.

"The statements in the papers about Tanlac so impressed me with their sincerity that I concluded to try it. The very first bottle gave me great relief, so I kept on with it until now after taking five bottles I am feeling even better than I did before I had the 'flu.' I can eat a good meal and have no trouble at all from indigestion. My old strength and energy have returned, and my general health is better than it has been for years. I am now glad to tell what Tanlac has done for me, and hope by giving this statement that someone who is as weak as I did may be benefited."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Drug Stores.—[Advertisement.]

OLD CASINO NOW
PICTURE THEATER.

REDONDO BEACH, July 30.—

After several months during which it underwent a complete change, the famous old Casino Building is again open to the public, not as a cafe, but as a motion-picture theater. Several hundred guests enjoyed a preview of the house last evening as the famous T. H. Dudley, R. J. Cleveland and C. B. Parkhurst, entertained. Admission was by card only.

"The Penalty," a new Goldwyn feature from the novel by Gouverneur Morris was shown.

Tonight the first performance to the public will be given. Sixteen thousand dollars was expended in remodeling the building itself and the total cost of the furnishings is placed at \$50,000.

TUCKER INQUEST.
An inquest over the body of Miss Flossie Tucker, 16 years of age, of 715 Idaho street, Sawtelle, who died as the result of injuries received when she was thrown beneath a moving street car at Sixth and Hill streets late Thursday afternoon, will be held at 2 p. m. Monday in the F. J. Finch undertaking parlors in Sawtelle. Miss Tucker, according to witnesses, was thrown beneath the street car when she attempted to board it while it was in motion. Both of her legs were crushed and she died several hours later.

SHARPE DENIES POISON CHARGE.

Says He Didn't Put Filings in
Wife's Food.

She Tells of Trap Set to Get
Sinister Evidence.

Curious Case to be Aired in
Court on Monday.

Frederick H. Sharpe, accused in a divorce complaint filed by his wife, Lottie A. Sharpe, of attempting to poison her by administering copper filings in malted milk, which she drank, vigorously denied the charge yesterday. He said he will employ an attorney and fight the case at a hearing Monday morning.

"I didn't know anything about the complaint until the papers were served on me," he said. "I had been as good a boy as usual and didn't know anything about it. Of course, I didn't put any filings in her food. I have a character to maintain and I will fight the case. I don't want to discuss it except to make a total denial."

Lack of sufficient corroborative evidence was responsible for the failure of Mrs. Sharpe to bring criminal action, Perry J. Backus, her attorney, said. She complained to the chief of police at Santa Monica and also to the district attorney's office.

The copper filings were found in bottles of malted milk which Mrs. Sharpe used, Mr. Backus asserted. They apparently had been moistened, put in the jar and shaken up so that it was necessary to dissolve the malted milk powder before they were visible. She opened a fresh jar, called in neighbors to see that no filings were present and then pressed the jar so that the finger prints of anyone tampering with it would be registered on the glass. "Later, investigation showed that the filings had been placed in the jar, but it appeared that the glass jar had been tampered with and a cloth and no finger prints were found. This exhibit and a pair of Mr. Sharpe's overalls with filings in the pockets have been turned over to the identification bureau under the direction of Chester Allen."

Mr. Backus acknowledged that there was no corroborative evidence to show that the defendant had been the one who filed in the jar. He is an electrician for the Pacific Electric Railway, it was explained, and this might easily account for the presence of copper filings in the pocket of his overalls.

**OCEAN PARK SECURES
NIGHT CIRCUS FLYER.**

COMMITTEE CONTRACTS FOR
SEASON COVERING MOST
OF NEXT MONTH.

Businessmen tomorrow, Ocean Park will present the summer attraction of the season for all Southern California beaches.

Yesterday the Ocean Park Special Event Committee contracted with Barr's Flying Circus for twenty-nine nights, starting tomorrow evening at 8 o'clock and ending Sunday, August 22. The committee, in making the contract, assumed financial obligations of approximately \$10,000.

Next, Bessie, recently with the government air service, will fly the airplane which will be illuminated by the committee. The plane, as many as nine loops in a drop, and tailspin from an altitude of 4000 feet, besides various other kinds of stunt flying.

The flying pleasure plan will furnish air 1000-watt power colored searchlights, which will be used nightly in the display of some of the stunts.

Snatches and other pieces of fireworks will be shot from the end of the pier to announce the arrival of the airplane.

All the stunts will take place over the ocean and as near as possible directly out from the end of the parking pier.

WILL ROUND UP TAX SHIRKERS.

Hundreds of Warrants Asked
for Occupational Levy
Many Days Overdue.

Acting under orders from Acting Chief Murray warrants for the arrest of hundreds of persons who have failed to pay their occupational tax were asked for yesterday by Sgt. McPhillips of the police licensing bureau. It was stated late yesterday that many of the delinquents will be placed under arrest today.

According to McPhillips the taxes became delinquent July 20 and since that date lists of persons to be arrested and taken into police court have been made out. All persons arrested, according to McPhillips will be taken into police court at once and fined \$5 and forced to pay up.

Minister to Poland Goes to Coronado.

Recuperating from strenuous work in Central Europe, Hugh Gibson, United States Minister to Poland, and son of Mrs. Frank A. Gibson of 2281 Scott street, is now at the Coronado Hotel, according to friends of the Gibson family in this city.

Mr. Gibson came on from Washington a few days ago and after a short visit with relatives in Menlo Park and friends at Santa Monica he accompanied his mother to San Diego, where she expects to remain for perhaps a month.

He is living practically in retirement at the Coronado Hotel. It is said, and hopes to recuperate from his exhausting work in Poland before being summoned back to Warsaw. He will return to Washington for a conference before sailing.

EVERYBODY STRIKING.

Melbourne City Engineer Brings
Sorry Tale from Antipodes.

H. E. Morton, City Engineer of Melbourne, Australia, who arrived in Los Angeles yesterday for a three days' visit of inspection, declared at the City Hall that labor strikes are playing havoc in his far off land.

"Prosperous? We are too darned prosperous, I guess, for all the working people are striking for one cause or another," he said. "As it is almost impossible to get construction work done, Mr. Morton took advantage of the situation to run over to the United States to study asphalt street work particularly."

KEEP CASE ENDS.

Jury Can't Agree in Case Charging
False Pretenses.

A jury in Judge Craig's court trying the case of John Stephens, charged with securing money under false pretenses, could not agree yesterday and was discharged. The case grew out of the sale of Kelp fertilizer to a number of ranchers near Glamis, and two of the accused victims joined in the prosecution of Stephens.

The crux of the case was the guarantee declared to have been given by Stephens that the fertilizer would show 15 per cent of potash. The stub on one of the checks given to Stephens contained the words, "guaranteed to hold 15 per cent potash," but Milton Carlson, a handwriting expert testified that these words had been written in the stub after the check had been delivered to Stephens.

MIDDY A VICTOR.

Charles A. Dodge, the only son of J. A. Dodge, chairman of the Board of Supervisors, midshipman on the U.S.S. Minnesota, now in the harbor, is visiting his parents in South Pasadena. Mr. Dodge will rejoin his ship in San Diego in eleven days.

POLITICS.

THE WATCHMAN.

FRIEND OF POLITICAL THOUGHT AND ACTION.

By the Sentry on His Beat.

We can count on some adroit jockeying among the candidates who are trying to get on the new Republican County Central Committee from now on until the primary contest is over. In the Sixty-third District, where Leo Youngworth has had a hand in picking candidates, the movement toward the handwagon is especially brisk. Mr. Youngworth, as I get it, is ambitious to voice a say in the new County Committee chairmanship. When the tree is shaken he hopes the plum will fall to Frank Doherty's lap, but it appears that neither the present membership of the County Central Committee nor the State Central Committee is receptive to Leo's idea. Viewing it from the sidelines, I would say that when the lightning strikes, Frank's waiting rod will hardly attract the current.

The State and county committees are jockeying along just now in a nice spirit of harmony, and there is no disposition to make it otherwise. I am venturing no names for the chairmanship, but when the choice is made my guess is that he will be the selection of the majority and that his big idea will be from now until dark to put the national and State tickets over.

I note that Kenyon F. Lee is out for the Republican County Central Committee in the Sixty-third District, which reminds me of those good old days when his distinguished dad, Bradner W. Lee, had a more active hand in guiding party affairs. I wouldn't say that he is less active in spirit now, though he has been misled from some of this year's gatherings, where his voice and counsel would have had their twenty-four carat ring.

Dr. Jesse Russell, who is making a good runner-up in the Assembly contest against John Robert White in the Sixty-first District, confided to me yesterday that she is again feminine laws, by which I take it, she means she throws on complete politician's government. When I remarked about the Wyoming town that not long ago reformed and elected a feminine bunch of rulers, from Mayor to sheriff, together with the police and fire departments, she simply wouldn't rise to it.

The hotel men, it seems, intend to puncture those boomlets in the Twenty-ninth Senatorial District that are opposed to Senator Dwight Davis. Their recent rallying at Barrell Hall, on West Sixth street, at which Frank O. Tyrrell and Henry M. Ward, Senatorial candidates in the Thirty-seventh District, spoke, was extremely flattering to Dwight, who looks like a sure-shot in his new ballwick.

"Harding and Harmon" is the slogan I see lettered conspicuously around the headquarters of the aspirants for the United States Senatorship. All three of them, of course, can't win this Senatorial handicap, but some of them are wavering about the big ticket, and they are not a bit bashful about wanting to climb on the handwagon.

Egbert J. Gates tells me that his preliminary guns will be fired in the east end of the Thirty-fifth Senatorial District, where his forces are working among the wage-earners. He is confident that his Batterment Association banner will carry with triumph in the other sections of the district.

Arthur B. Bonner, a candidate for Supervisor in the Fifth District, dashed a wireless yesterday that he is off for a day with the Pasadena Boy Scouts at Catalina Island, and meantime intends to let his campaign run on its own momentum. He will be assistant camp director with the Scouts.

The Republican Study Club, composed of women of the State and County Republican Central committees, will hold its next meeting next Tuesday at 2:30 p.m. at the new Union League Club Building, Third and Hill streets. Mrs. Florence Collins Porter will preside. Joe Craft will speak on the election and duties of the State Central Committee.

Closed All Day Saturday During July and August

Monday Marks the Beginning of Our Eagerly Anticipated

August Furniture Sale

A SEMI-ANNUAL
SALE of our entire
stock, comprising hun-
dreds of thousands of
dollars' worth of the
kind of furniture that is
dependable in its con-
struction, enduring in
quality and beautiful in
its conception.

IT is our good fortune
to be able to offer to
our patrons dependable
furniture at much lower
prices during the month
of August than will pre-
vail in the Fall and Win-
ter. We have exerted
every effort to make this
sale one of supreme in-
terest from start to fin-
ish.

The great furniture
factories are not delivering their full quota of or-
ders—the demand is greater than the supply—all
of which points to the advisability of buying now
while stocks are complete.

Monday Also Sees the Opening of Our Splendid August Sale of Furs

It takes but one glance at the greatly lowered prices and the
beauty of these furs in the August Sale to convince one of the ex-
pediency of buying here and now.

Fine furs are almost impossible to find just now. Fortunately
we ordered heavily and we are now in a position to offer you lus-
trous pelts, modeled into coats and wraps that are assured of
great vogue during the coming season, at prices which we believe
are seasonally low.

Whatever Fashion dictates in the way of fur pieces you will
also be able to find in our August collection—for it is all-inclu-
sive. Especial prominence has been given to:

And a Series of August Sales

Sales to wind up the Summer merchandise
late in arrival and priced more attractively than
you can imagine. Sales of special purchases to
bring you things you will need this Fall. Reduc-
tions which will not be possible when later ship-
ments go into stock.

Watch the papers for details of these depart-
mental sales which will be of unusual importance.
And shop early—early in the week, early in the
day. Hamburger's is closed all day today and ev-
ery Saturday throughout the month of August.
